

ATANG MAHLOMAHOLO

Atang Mahlomaolo is a dedicated Senior Economist at the Central Bank of Lesotho, specializing in healthcare markets, macroeconomic policy, and data analysis. He plays a key role in ensuring effective monetary policy and maintaining the Loti-Rand peg. With expertise in macroeconomic forecasting, international reserves management, and automated reporting systems, Atang is known for his innovative approach to economic research. He holds a Master's in Applied Economics from Eastern Michigan University and has received multiple accolades for his work.

2024

Senior Economist

Central Bank of Lesotho

Maseru, Lesotho

- **Forecasting & Liquidity Management:** Monitor liquidity conditions and provide strategic advice on optimal Open Market Operations (OMO) to enhance monetary policy implementation.
- **Liquidity Forecasting Enhancement:** Improved liquidity forecasting frameworks by incorporating novel machine learning approaches, enhancing predictive accuracy and decision-making.
- **International Reserves Strategy:** Prepare periodic technical reports on forecasting and determining optimal and prudential levels of international reserves, ensuring the stability and adequacy of the reserves to maintain the currency peg.
- **Monetary Policy Advisory:** Advise on prudential monetary policy responses, including policy rate adjustments and reserve adequacy, to maintain the currency peg between Lesotho's Loti and the South African Rand.
- **Automation & Efficiency Improvements:** Automated repetitive tasks and workflows within the Research Department using R, Python, and other programming languages, significantly improving operational efficiency. These systems are now integral to the Research Department's periodical reporting processes.
- **Data Pipeline Development:** Designed and implemented end-to-end data pipelines that integrate data from API endpoints and internal databases, enabling seamless updates to relational databases and streamlining data analysis processes within the Research Department

2019

Economist

Central Bank of Lesotho

📍 Maseru, Lesotho

- **Automated Reporting System Development:** Developed an automated reporting system using Quarto and Markdown within the Posit ecosystem, now utilized by the Research Department for generating periodic reports.
- **Monetary Policy & Liquidity Management:** Ensure optimal conduct of monetary policy by forecasting banking sector liquidity, monitoring liquidity conditions, and advising on effective Open Market Operations (OMO) strategies.
- **International Reserves Management:** Prepare periodic technical reports on the forecasting and determination of optimal and prudential international reserves levels, ensuring the Central Bank of Lesotho maintains adequate reserves.
- **Reserve Money & Exchange Rate Stability:** Advise on prudential targets for reserve money levels and set an international reserves floor to safeguard the fixed exchange rate between Lesotho's Loti and the South African Rand.
- **Macroeconomic Forecasting:** Actively participate in forecasting exercises to produce bi-annual macroeconomic outlook reports for Lesotho's economy using the financial programming approach.
